

**FACT SHEET for: What Grass Is That – Turf Grass Identification – Queensland Blue Couch vs Green Couch vs Durban Grass**

1) Giddy it's the lawn expert

2) What Turf Grass is That?

3) I am at another customer's lawn in Castle Hill. What is interesting with this site is that it has 3 different turf grasses grown on site and I can show you them side by side for quick comparison.

4) On the nature strip of this job we have Durban Grass (*Dactyloctenium australe*), and inside the property there is a lawn with both Couch / Green Couch / Bermuda Grass (*Cynodon dactylon*) and Queensland Blue Couch (*Digitaria didactyla*).

5) All these grasses vary in colour and texture and the pictures and video do best in showing what they look like.

6) Hope this helps.
